

Date	Time	Session Title	Description	Special Guests
Monday, June 10	7-8 AM	Using Consumer Technology in Sleep Research	In this session, panelists will discuss their perspectives on the utility and capability of consumer wearables and technology for field-based assessment of sleep and circadian rhythms. Within this framework, attention will be placed on the strengths, limitations, and unique potential of these emerging and evolving technologies.	Daniel Forger, PhD Christopher E. Kline, PhD Jesse Cook
Monday, June 10	12:45-1:45 PM	International Collaborations and Opportunities for Non-U.S. Based Sleep Researchers	Learn to initiate, maintain and expand collaborations both nationally and international. Non-US based researchers can also seek advice on seeking out collaborations and gran opportunities in the United States.	Frank A. Scheer, PhD
Tuesday, June 11	7-8 AM	Supporting Women and Famillies in Sleep Sciences	Come meet some of our successful female sleep researchers and hear about their experience with establishing an independent program of research, maintaining a healthy work-life balance, dealing with challenging situations, finding mentor(s), and becoming involved in the SRS. This informal breakfast session is open to all trainees. The speakers encourage you to bring questions and additional topics for discussion.	Marishka Brown, PhD Elizabeth B. Klerman, PhD Kathryn J. Reid, PhD
Tuesday, June 11	11:30 AM - 12:30 PM	Post Doc Speed Dating	Are you on the market for a postdoc? Learn about available opportunities from programs and faculty through this informal networking event. Bring a copy of your CV and your 1-minute elevator pitch!	
Wednesday, June 12	7-8 AM	Breakfast with Past Presidents of the SRS	Join us for breakfast and meet some of the Past Presidents of the Sleep Research Society. This is an excellent networking opportunity in a fun and casual setting.	Sean P.A. Drummond, PhD Andrew D. Krystal, MD Janet M. Mullington, PhD
